			, , ,			Table/Entry with attributes	
1.1.1	Strategic Preparation	Establish baseline of ICS	Available information of devices;	EXTERNAL	Identify field devices	[Serial number, manufacturer, modules, (I/O) ports, location, connections, MAC, Interfaces];	[1]
1.1.2	Strategic Preparation	Establish baseline of ICS	Available information of Actuators/Sensors;	EXTERNAL	Identify actuators and sensors	Table with attributes [Serial number, manufacturer, modules, (I/O) ports, location, connected field devices];	[1]
1.1.3	Strategic Preparation	Establish baseline of ICS	Available information of industrial PC/OS;	EXTERNAL	Identify industrial IT components	2011001	
1.1.4	Strategic Preparation	Establish baseline of ICS	IT asset inventory;	EXTERNAL	Acquire IT asset inventory	Entries to ICS asset inventory with IT components;	
115		Fatablish baseling of ICC	IT components attributes;	1.1.3;			(4)
1.1.5	Strategic Preparation	Establish baseline of ICS	· ·	EXTERNAL	Identify adaptions of IT components (OS) for industrial environment	Adaptions/Differences of IT components for industrial environment;	[1]
1.1.6	Strategic Preparation	Establish baseline of ICS	Available information of network components;	EXTERNAL	Identify network components	Entries with network components in asset inventory;	[1]
				1.1.1;		Functionality [Effecting Audit/Logging];	
1.1.7	Strategic Preparation	Establish baseline of ICS	See Output-Of Index	1.1.2;		Forensics Compliant;	[1]
				1.1.4;		Reference materials available;	
				1.1.5;	Identify old or unsupported systems (legacy systems)		
				1.1.1,		Functionality [Effecting Audit/Logging];	
1.1.8	Strategic Preparation	Establish baseline of ICS	See Output-Of Index	1.1.4;		Forensics Compliant;	[1]
				1.1.5;	Identify supported and undocumented technology systems (modern/proprietary systems)	Reference Materials Available;	
1.1.9	Strategic Preparation	Establish baseline of ICS	Available information of field bus components;	EXTERNAL	Identify field bus components	Entries with field bus components in asset inventory;	[1]
				1.1.1;	· · ·	·	
1.1.10	Strategic Preparation	Establish baseline of ICS	See Output-Of Index	1.1.2;	Generate asset inventory	Final searchable asset inventory with all components and their attributes;	[1]
1.1.10	Strategic Freparation	Establish baseline of ics	see Output-Of maex	1.1.4;	Generate asset inventory	rinal searchable asset inventory with all components and their attributes,	[1]
				1.1.5;			
1.1.11	Strategic Preparation	Establish baseline of ICS	Connections of assets;	1.1.1; 1.1.2; 1.1.6; 1.1.10;	Identify internal and external connections	Connections to and from partner or peer locations; Access to mechanisms used by the vendor to support control systems technology; Access to mechanisms used by contractors to support control systems environments; Actual relationships between oyber resources and real-world operations; The pervasiveness of effective cyber security policies governing control systems operations; Information exchange mechanisms within the supply chain; Used protocols;	[1]
1.1.12	Strategic Preparation	Establish baseline of ICS	Asset inventory; Internal and external connections;	1.1.9; 1.1.10;	Determine architecture	Known vulnerabilities; Available security and safety mechanisms; Connections; All available components;	[1]
1.1.13	Strategic Preparation	Establish baseline of ICS	Asset inventory; Internal and external connections; Architecture;	1.1.9; 1.1.11;	Identify attack paths	Networkconnections required visibility on;	[1]
			Asset inventory;	1.1.10:			
1.1.14	Strategic Preparation	Establish baseline of ICS	Internal and external connections;	1.1.11;	Generate threat model	Locations/Assets required visibility on;	
2.2.2-7	Strategie i reparation	Establish baseline of res	Architecture;	1.1.13;	deficiate uncut model	Eccations/ assess required visionity on,	
			Attack paths;				
1.1.15	Strategic Preparation	Establish baseline of ICS	Engineering workstation files;	EXTERNAL	Store Project files	Secure and forensic compliant files for further retrieval;	[2]
1.1.16	Strategic Preparation	Establish baseline of ICS	Field devices, actuators and sensors (were applicable) configuration;	1.1.10; 1.1.15;	Store hardware configuration	Secure and forensic compliant storage of original configuration;	[2]
1.1.17	Strategic Preparation	Establish baseline of ICS	Wiring diagrams of field device/bus with actutors and sensors;	1.1.1; 1.1.2; 1.1.10;		Secure and forensic compliant storage of intended files;	[2]
				1.1.15; 1.1.1:	Store Wiring diagrams		
1.1.18	Strategic Preparation	Establish baseline of ICS	Field devices;	1.1.1; 1.1.10;		Secure and forensic compliant storage of intended control logic;	[2]
1.1.10	Strategic Freparation	Establish baseline of ics	rield devices,	1.1.15;	Store control logic programs	secure and forensic compliant storage of intended control logic,	[2]
				1.1.6:	Store control logic programs		
1.1.19	Strategic Preparation	Establish baseline of ICS	Network components cofigurations;	1.1.10;		Secure and forensic compliant storage of intended network configurations;	[2]
				1.1.15;	Store network configuration		
			All (IT) components;	1.1.10;			
1.2.1	Strategic Preparation	Identification of data sources	All Assets with storage capabilities;	1.1.12;	Identify all databases	available databases and their specific data;	[1]
			Architecture;				
1.2.2	Strategic Preparation	Identification of data sources	field devices;	1.1.1;	Identify data storages of components	field components with storage functions/capabiltiies and their data;	[1]
1.2.3	Strategic Preparation	Identification of data sources	Asset inventory;	1.7.8;	Locate external storage media	Available external storage media and devices;	[3]
1.2.4	Strategic Preparation	Identification of data sources	available data sources;	1.1.1; 1.1.10; 1.2.1; 1.2.2;	locate data sources	Location of data source within architecture;	
1.3.1	Strategic Preparation	Determining known and unknown data types (data model)	data sources;	1.2.5;	Analyze data source content	data types and evidence;	
1.3.2		Determining known and unknown data types (data model)		1.1.11;	·		[42]
1.3.2		Determining known and unknown data types (data model)	Connections to and from partner or peer locations;	1.1.12;	Identify used protocols	used protocols in architecture;	[4]
1.3.3	Strategic Preparation	Determining known and unknown data types (data model)	Identified protocols of devices;	EXTERNAL; 1.1.1; 1.3.2;	Analyze fields protocol	pattern/bytes of protocol;	[4]
1.3.4	Strategic Preparation	Determining known and unknown data types (data model)	Engineering workstation files;	1.3.2;	Analyze fields protocol  Analyze project filetypes	content of specific filetypes;	
			Storaged configuration files;	1.1.16;	rainific project metypes		
1.3.5	Strategic Preparation	Determining known and unknown data types (data model)	Network components cofigurations;	1.1.19;	Analyze configurationfiles	specific content of configurations;	
1.3.6	Strategic Preparation	Determining known and unknown data types (data model)	field devices content;	1.1.1; 1.2.4;	Analyze firmware files	firmware;	[5]
1.3.7	Strategic Preparation	Determining known and unknown data types (data model)	Stored control logic files;	1.1.18;		control logic ;	
		, , , , , , , , , , , , , , , , , , , ,	Location of data sources;	1.1.19;	Analyze control logic files
